WHY DO PEOPLE ACT THE WAY THEY DO?

Imagine how easy it would be to motivate your employees
if you knew exactly *what motivates them*.

Join us for a free hour long presentation discussing two key tools to understanding behavior and motivation. The truth is that you can't motivate people; they come with their own motivators. Find out how to identify just what those are and become more effective in building and managing work groups. We'll discuss the DISC behavioral profile – HOW people behave – in tandem with MOTIVATORS – WHY people do what they do. We'll do this from the viewpoint of your personal behavioral and motivational drivers.
